WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherals may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

- This compact disc is intended for use only with the PlayStation® game console.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

To reset the game to the Title Screen, press the **START button** and **SELECT button** simultaneously. See "Special Moves" on page 9 for more battle moves.

GETTING STARTED

From the Title Screen, press the **START Button** to advance to the Game Mode Screen. Choose between Battle Mode, Tournament Mode, Option Mode and Build Up Mode by selecting one of the icons at the bottom of the screen.

At the Title Screen, press the **SELECT button** to advance to the Sound menu. You can listen to the background music and sound effects for the game by pressing the **✕ button** to play and the **▲ button** to stop. Use the **directional buttons** to highlight "End" and press the **✕ button** to exit the Sound menu.

Although you will find references to Bandai throughout *Dragon Ball GT® Final Bout*, Atari and FUNimation have rereleased the game (originally created by Bandai in 1997) so that fans and collectors can enjoy this classic title. The game's packaging and manual have been updated, but the game code remains unchanged.

BATTLE MODE

To play against the computer, select VS COM. To play against a person, select VS MAN (battle). When playing against the computer, the computer selects your opponent. You must beat all of the characters, including the hidden ones, to see the ending of the game.

You can set the difficulty level to Easy, Normal or Hard at the Options Menu (see page 8).

BATTLE SCREEN

If you choose the 1P option, your character's data is shown in the upper-left corner of the Battle Screen. Data for Player 2 is shown in the upper-right corner.

LIFE GAUGE

The life gauge shows a character's life strength. If you are fighting in Battle Mode, the life gauge appears in yellow at full health. The color changes to red as your character sustains more damage. If a character's life gauge is depleted, that character has lost.

POWER GAUGE

Each character can use special energy attacks powered by Ki, such as the Kamehameha Wave and the Energy Ball. (For a complete list of special character moves, see the "Characters" section on page 13-17.) When you make an energy attack, your character's power gauge dwindles. You can recover this power by gathering more Ki; press the **X button** and the **■ button** simultaneously to increase power.

TOURNAMENT MODE

From one to eight players can compete in Tournament Mode. For two or more players, two controllers are required. Tournament Mode can only be played with controller configuration A. Follow these steps to begin a Tournament:

1. Choose a Character.

Press the **directional buttons** to select the character you want to use and then press the **X button** to continue. More than one player may choose the same character.

2. Choose a location.

Use the **directional buttons** to select Stage 1 or Stage 2 and then press the **X button** to continue. In Stage 1, the Meteor Smash attack cannot be used. In Stage 2, the Meteor Smash is available.

3. Start tournament

Press the **START button** to enter the Tournament. The game will match up opponents automatically.

BUILD UP MODE

In Build Up Mode, you can increase your favorite characters' skills through fighting and save the improved character to a memory card. For example, if you use the Special Knockout Trick and Meteor Smash often, these skills will be improved. Here's how it works:

1. Insert a memory card with at least 1 block free space in MEMORY CARD slot 1 or MEMORY CARD slot 2.
2. Choose the Build Up Mode icon on the Game Mode Screen, and select the memory card that you are going to use.
3. Start fighting against a computer character. Your opponent's level will change as your character's level changes.
4. Your character's skill will increase whether you win or lose the battle, and the improvements will be saved. A single memory card can save data for up to 15 characters.

Reading the Buildup Screen

Use the Build Up Mode Screen to build your character efficiently. The Battle Screen looks the same as in Battle Mode and Tournament Mode.

The numbers above each character portrait show each character's level. After you defeat an opponent, that character's portrait appears gray.

Your character's Level (LV) and Battle Power (BP) are displayed on the bottom of the screen.

Once you defeat all of the characters in a block, a hidden character will appear. Once you defeat this character, you can advance to the next block.

Built up characters can fight each other as well. You and your friends can challenge each other with built up characters by selecting Build Up Battle.

OPTIONS MENU

At the Options Menu, you can change the settings of the game. **Note:** Changes to Options are not saved. The Options settings will revert to default values when you turn off or reset your PlayStation® console.

The settings for Practice Mode cannot be changed.

KEY CONFIGURATION

Choose controller configuration A, B or C. The default is configuration A.

DIFFICULTY LEVEL

Set opponent difficulty level to EASY, NORMAL or HARD. The default is NORMAL.

KNOCKOUT TRICK DEMO

Turn the demo that shows the special knockout trick ON or OFF. The default is ON.

LIFE AND POWER GAUGES

Select ON to have Life and Power Gauges appear at the top of the Battle Screen, or OFF for no Gauges. The default is ON.

METEOR SMASH

You can turn the Meteor Smash option ON or OFF for each character. The default is ON.

PRACTICE MODE

Practice your skills and special moves. Choose the character you wish to practice playing, and then choose an opponent.

SPECIAL MOVES

Each character can perform the following actions. For character-specific moves, see the "Characters" section on pages 13-17.

Flight Technique

Press the **L1 button** or the **R1 button** plus the **up directional button** to perform an aerial attack.

Drop

Press the **down directional button** to bring the character back down to the ground.

Energy Ball Attack

Press (in order) the **down directional button**, the **right directional button** and the **▲ button** to launch the special energy ball attack.

Replenish Ki

Press the **✕ button** and the **■ button** simultaneously to recover Ki (power).

Dash

Press the **L1 button** or the **R1 button** plus the **left** or **right directional button** to dash in either direction.

Shift Camera

Press the **L1 button** or the **R1 button** plus the **down directional button** to move the character view forward when facing right.

Press the **L1 button** or the **R1 button** plus the **✕ button** to move the character view backward when facing right.

How to Get Up

If your character falls down, there are three ways to get back up:

1. Press the **right directional button** repeatedly to get up normally.
2. Press the **left directional button** repeatedly to get up using a backward somersault.
3. Press the **✕ button**, the **■ button**, the **● button** or the **▲ button** repeatedly to get up while rolling over.

SPECIAL KNOCKOUT TRICK

You can trigger the Special Knockout Trick if you press the right combination of buttons when your character is away from their opponent.

You can defend or counterattack against this move if your opponent uses it. When the word COUNTER appears onscreen, you have the following options:

COUNTERATTACK

Press the **■ button**, the **● button** and the **▲ button** simultaneously to counter with your own Special Knockout Trick. In order to keep counterattacking while both characters are trading attacks, press the **▲ button** repeatedly.

SNAP BACK

Press the **■ button** and **● button** to snap back from the attack.

ERASE MOVE

Press the **✕ button** and **▲ button** to erase the move.

DEFEND

Press the **✕ button** to defend against the attack.

METEOR SMASH

In addition to individual knockout moves (see "Characters" on pages 13-17), each character can also perform a powerful and flashy series of attacks called the Meteor Smash. Perform the following actions while using any character in order to execute the Meteor Smash:

1. When you are very close to your opponent (on the ground or in the air), press the **R2 button** while pressing the **left** or **right directional button** toward your opponent. If you are too far away from your opponent when you launch the Meteor Smash, it will not destroy your opponent.

2. As soon as your opponent is knocked backward, execute any of the following three attacks:

Lashing Punch:

Press the **left** or **right directional button** toward your opponent while pressing the **■ button** and the **▲ button**.

Lashing Kick:

Press the **left** or **right directional button** toward your opponent while pressing the **● button** and the **▲ button**.

Meteor Attack:

Press the **✕ button** and the **▲ button**.

3. If the words "Meteor 01" appear at the bottom of the screen, your Meteor Smash was successful. The Meteor Smash varies with each character.

4. If your opponent is knocked backward again, you can attempt one of the above attacks again. You can use any of the eight directional button directions after the second Meteor Smash.

5. It is possible to perform up to 10 consecutive Meteor Smash attacks. The more times you use the Attack in succession, the more difficult it becomes to pull it off.

DEFENDING AGAINST THE METEOR SMASH

If you are knocked backward by a Meteor Smash, you can try to defend against it by guessing which attack your opponent is using and respond accordingly. Input one of the following commands to defend against:

- **Lashing Punch:** Press the **■ button** and the **✕ button** simultaneously.
- **Lashing Kick:** Press the **● button** and the **✕ button** simultaneously.
- **Meteor Attack:** Press the **■ button** and the **● button** simultaneously.

You can fight back against the Meteor Smash by launching your own Meteor Smash. When you are knocked backward, do one of the following before your opponent inputs the Meteor Smash command:

- Press the **directional buttons** in any direction while pressing the **■ button** and the **✕ button**.
- Press the **directional buttons** in any direction while pressing the **● button** and the **▲ button**.
- Press the **directional buttons** in any direction while pressing the **▲ button** and the **✕ button**.

CHARACTERS

GOKU®

Goku® has the same fighting power as other characters, such as Super Vegeta® and Gohan®. He can gain an advantage fighting in close quarters or at long range. He has a wide variety of kicks and punches that are powerful and easy to use.

HOW TO IMPROVE GOKU® IN BUILD UP MODE

Goku® has a good balance of skills. He excels at using the power of tricks, fighting with a wide range of skills, and exercises considerable speed. Thus, he has the possibility of becoming stronger regardless of which way he fights. As Goku® has longer legs than the other characters, his kicking skills can be greatly enhanced with practice.

Attack	Command	Description
Kamehameha Wave	← ↓ → ▲	The most famous of all the Dragon Ball® moves
Super Kamehameha Wave	↓ ← → ▲	The most powerful version of the Kamehameha Wave
Dash Elbow	→ → ■	Retreats after hitting with an elbow.
Jump Knee Lift	↓ ↑ ●	A series of pummel kicks in the air after a sharp spin kick
Slash Down Kick	→ ↓ ●	A descending kick when the character is jumping

PAN™

Pan's power and durability are less than the other characters but she is equal to them in the variety of tricks available to her. She is most effective when punching once and then retreating.

HOW TO IMPROVE PAN™ IN BUILD UP MODE

It might be difficult to build up Pan™ when fighting in close quarters, because her fighting range is short and she has poor stamina. But she can fight well even at close quarters by frequently using Eagle Knee Lifts that give her speed and power.

Attack	Command	Description
Atomic Side Blitz	← ↓ → ▲	A beam weapon similar to the Kamehameha Wave
Twin Energy Balls	↓ ← → ▲	A laser beam weapon where two energy balls are thrown at the opponent
Eagle Knee Lift	↓ ↑ ●	A somersault kick
Cyclone Heel Kick	↓ → ●	A flying heel kick
Cutting Upward	→ ← → ■	A descending kick when the character is jumping

CHILD GOKU®

"Child Goku®" has a variety of attacks that are easy to use. He does not have a noticeable weak point and is favored in fighting either at close quarters or at long range. However, his series of attacks are so powerful that it is better to fight at close quarters.

HOW TO IMPROVE CHILD GOKU® IN BUILD UP MODE

Child Goku® is superior to the other characters in using a series of punching attacks, which can be initiated by inputting the next command (command cancel) during another attack. If you keep building up Child Goku's punching skills, it is possible to beat an opponent without any counterattack.

Attack	Command	Description
Kamehameha Wave	← ↓ → ▲	The most famous of all the Dragon Ball® moves
Super Kamehameha Wave	↓ ← → ▲	This is Child Goku's best knockout trick
Solid Shoot	↓ → ●	A head butt followed by three serial spin kicks
Sliding Bomb	← ↓ → ■	An upwards kick followed by a downwards kick
Slash Down Kick	→ ↓ ●	A descending kick when the character is jumping

TRUNKS®

Trunks® is the easiest character to handle! He has a good balance of fighting power, speed and stamina with a variety of sharp kicking tricks. He can fight both at close quarters and at long range. This character is easy to use for beginners.

HOW TO IMPROVE TRUNKS® IN BUILD UP MODE

Trunks® has more kicking attacks than punching attacks. It is highly recommended to build up his Lashing Kick. This trick allows Trunks® to fight from long range where his opponent's punches cannot reach him.

Attack	Command	Description
Burning Attack	← ↓ → ▲	A powerful concealed laser beam weapon
Finishing Move	↓ ← → ▲	Throws a huge laser ball of energy
Down the Hill	↓ ← ●	Spin kick followed by a front somersault
Rushing Kick	→ → ●	Spin kick and four rapid kicks in the air
Sliding Kick	→ ↓ ●	Double-kick in close to the opponent

SUPER SAIYAN VEGETA®

Super Saiyan Vegeta® has good speed and his power compares with that of his rival, Goku®. He performs especially well in kicking and punching at close quarters. This character has greater defensive prowess than offensive.

HOW TO IMPROVE SUPER SAIYAN VEGETA® IN BUILD UP MODE

It is better to build up Super Saiyan Vegeta®'s punching tricks, which can be used in fighting at close quarters, because his arms and legs are not especially long. If you build up his offensive and defensive stamina, Super Saiyan Vegeta® will be the equal of any opponent in close fighting.

Attack	Command	Description
Big Bang Attack	← ↓ → ▲	A high-powered energy ball shot with one arm
Final Flash	↓ ← → ▲	A laser beam shot with both arms
Dash Elbow	→ → ■	A dashing double-thrust elbow punch
Super Dash	↓ → ●	A flurry of punches and kicks while dashing at the opponent
Slash Arrow Kick	↓ ↑ ●	Sharp kick upward from the ground

GOHAN®

Gohan® generally has superior attacking power and speed. The tricks that Gohan® learned from Goku® and Piccolo™ are both powerful and easy to use. Gohan® performs better at close quarters than at long range.

HOW TO IMPROVE GOHAN® IN BUILD UP MODE

As Gohan® attacks with greater speed than the other characters, you need to build up his kicking ability. You can use the Sliding Kick to attack an opponent from the ground and the Splits Kick to attack an opponent from the air.

Attack	Command	Description
Laser Blaster	← ↓ → ▲	A powerful laser beam from both hands
Kamehameha Wave	↓ ← → ▲	A powerful energy blast equal to Goku's
Splits Kick	↓ ↑ ●	Kicks the opponent in the air while jumping perpendicularly
Knee Slasher	→ ← → ●	A flurry of kicks after a jumping knee kick
Sliding Kick	→ ↓ ●	A devastating series of kicks

CELL™

Cell™ has the most outstanding attacking and staying powers of all 10 characters. When exchanging blows, he will be stronger than Child Goku® or Super Saiyan Vegeta®. But as Cell's movements are slow, it is difficult for him to drive an opponent into a corner.

HOW TO IMPROVE CELL™ IN BUILD UP MODE

As Cell™ fights in close quarters most of the time, it is best to build up his staying power by defending diligently. When attacking, use the Ground Slider often. As the Ground Slider works best from medium range, it is useful for surprise attacks on an opponent.

Attack	Command	Description
Kamehameha Wave	← ↓ → ▲	Cell's Kamehameha Wave is stronger than others'
Shock Wave	↓ ← → ▲	Emits enormous energy from head to toe
Rising Attack	↓ ↑ ■	Four chops following a jumping knee
Cell Combination	→ ↑ → ■	A series of smacks while moving in on an opponent
Ground Slider	↓ → ●	Two kicks while approaching an opponent

KID BUU®

Kid Buu® uses irregular movements and his small size to avoid attacks. Kid Buu® might be the works character to fight against because his attacking speed is so fast and his series of attacks are so easy to use.

HOW TO IMPROVE KID BUU® IN BUILD UP MODE

Kid Buu® is so small that he can avoid attacks even when he is standing. It is recommended that you build his offensive skills, rather than the defensive ones. When fighting at medium range, you should use the Expansion Punch often.

Attack	Command	Description
Power Ball	← ↓ → ▲	Puffs out his body and fires an energy ball
Vice Shout	↓ ← → ▲	Fires a powerful laser beam from his mouth
Spiral Kick	↓ → ●	Twisting kick while standing on his head
Expansion Punch	→ ← → ■	Punches the opponent by extending his arms
Ultimate Punch	← ↓ → ■	Punches an opponent with a massive fist

FRIEZA®

With the capability of using speedy attacks with his tail, Frieza® is thoroughly guarded. However, as his stamina is weak relative to the other characters, his strengths can be best taken advantage of in long-range fighting.

HOW TO IMPROVE FRIEZA® IN BUILD UP MODE

Since Frieza® is good at fighting at a distance from the opponent, you should build up the Death Ball. If you are going to fight at close quarters, it might be best to build up attacks that can be used quickly, such as the Dash Elbow.

Attack	Command	Description
Death Ball	← ↓ → ▲	Throws a super-destructive energy ball with two hands
Evil Energy	↓ ← → ▲	Throws a giant laser beam from his fingertips
Dash Elbow	→ → ■	A swift double-elbow punch
Super Tail Kick	← ↓ → ●	Surging somersault attack from a curled position
Flying Kick	→ ↓ ●	Sharp kick from the air

PICCOLO™

Piccolo™ is a character with outstanding speed and a variety of kicking attacks. However, he does not have much stamina. Thus, he fights best at medium to long range. Mystic Attacks and Sonic Kicks are recommended because these tricks can be used from long range.

HOW TO IMPROVE PICCOLO™ IN BUILD UP MODE

Piccolo™ is very good at fighting from long range. You should build up his knockout tricks, such as the Evil Laser Beam, the Sonic Kick and the Cutting Wave. If you build up these skills, you can overpower an opponent's physical strength even if the opponent is well defended.

Attack	Command	Description
Evil Laser Beam	← ↓ → ▲	A laser beam that can shoot through people
Fierce Laser Beam	↓ ← → ▲	A huge energy ball that can shoot through an opponent
Cutting Wave	→ → → ●	A heel kick following a series of punches
Sonic Kick	→ ← → ●	A series of kicks delivered quickly from two sides
Mystic Attack	→ → ■	...

TECHNICAL SUPPORT

(UNITED STATES & CANADA)

Help Via the Internet

Up-to-the-minute technical information about Atari products is generally available 24 hours a day, 7 days a week via the Internet at:

www.atarisupport.com

Through this site you'll have access to our **FAQ** (Frequently Asked Questions) documents, our **Hints/Cheat Codes** if they're available, and an **E-Mail** area where you can get help and ask questions if you do not find your answers within the **FAQ**.

Note: In the event we must send you a Hint Sheet, **FAQ** document, patch or update disc via E-mail, we may require verifiable consent from a parent or guardian in order to protect children's privacy and safety online. Consent Forms are available at the web site listed above.

Help Via Telephone in the United States & Canada

For phone assistance, call **Atari Technical Support at (425) 951-7108**. Our **Interactive Voice Response** system is generally available 24/7, providing automated support solutions immediately.

This console-based product has automated support, which includes information such as gameplay tips, information on Control Keys, possible Cheat Code combination keys, and instructions for finding secret screens and/or additional game levels (if these type of items exist and are made available for this particular product).

Great News! We've improved our Automated Systems so that you can get product-specific Troubleshooting help more quickly. All you need to do is enter the product's Part # when prompted to do so. This will take you directly to all of our known issues and solutions for this title. The product's **Part #** is located in several places (on the CD label, Game Pak, package and/or plastic disc case, if applicable) and is usually identified by a number such as **04-12345**. When prompted by the Automated System, enter the **last five digits** of your product's Part #. (For example, **Part #** 04-12345 would require that you enter the "12345" portion of the number for that product.) Note: Some products simply feature a five-digit Part # without an "04-" prefix.

Live support is generally available Monday through Friday, 8:00 AM until 6:00 PM (Pacific Time).

Note: We may be closed on major holidays.

Product Return Procedures in the United States & Canada

In the event our technicians at **(425) 951-7108** determine that you need to forward materials directly to us, please include a brief letter explaining what is enclosed and why. Make sure you include the Return Merchandise Authorization Number (RMA#) supplied to you by the technician, and your telephone number in case we need to call you. You will receive the mailing address when the technician gives you the RMA#. Any materials not containing this RMA# will be returned to you unprocessed.

Warranty Policy in the United States & Canada

If our technicians determine that the product storage medium is found to be defective within ninety (90) days of original purchase, (unless otherwise provided by applicable law), Atari will replace the item free of charge, to the original purchaser, if the item is accompanied by the original dated receipt and packaging.

END-USER LICENSE AGREEMENT

IMPORTANT — READ CAREFULLY: Please be sure to carefully read and understand all of the rights and restrictions described in this End-User License Agreement (“EULA”).

AGREEMENT

This document is an agreement between you and Atari, Inc. and its affiliated companies (“Company”). The enclosed software game disc(s), cartridge or Game Pak (“Software”) and any accompanying printed materials are licensed to you only on the condition that you accept all of the terms contained in this EULA.

By opening this package and installing or otherwise using the Software you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA you may not install or use the Software and within 15 days of purchase you must call the Tech Support telephone number listed in the manual accompanying the Software (the “Manual”). Select the Automated Phone System’s Main Menu option for Consumer Services and follow the prompts.

You will be given a Return Merchandise Authorization number (RMA #) by the technician. You then have 15 days from the date of this contact to return the Software in its protective covering, the Manual and the original sales invoice to the address supplied to you.

If this is a PC product, when you install the Software you will be asked to review and either accept or not accept the terms of the EULA by clicking the “I Accept” button. By clicking the “I Accept” button you acknowledge that you have read the EULA, understand it and agree to be bound by its terms and conditions.

COPYRIGHT

The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. All title and copyrights in and to the Software (including but not limited to any images, photographs, animations, video, music, text and “applets” incorporated into the Software) and any printed materials accompanying the Software are owned by the Company or its Licensors.

GRANT OF LICENSE

The Software is licensed and not sold to you and its use is subject to this EULA. The Company grants you a limited, personal, non-exclusive license to use the Software in the manner described in the user documentation. The Company reserves all rights not expressly granted to you in this EULA.

PERMITTED USES

1. If the Software is configured for loading on a hard drive, you may install and use the Software on a single computer.
2. You may make and maintain one copy of the Software for backup and archival purposes, provided that the original and copy of the Software are kept in your possession.
3. You may permanently transfer all your rights under this EULA, provided you retain no copies, you transfer all of the Software (including all component parts, the media and printed materials and any upgrades) and the recipient reads and accepts this EULA.

RESTRICTIONS

1. You may not delete or obscure any copyright, trademark or other proprietary notice on the Software or accompanying printed materials.
2. You may not decompile, modify, reverse engineer, disassemble or otherwise reproduce the Software.
3. You may not copy, rent, lease, sublicense, distribute, publicly display the Software, create derivative works based on the Software (except to the extent expressly permitted in the Editor and End-User Variation section of this Agreement or other documentation accompanying the Software) or otherwise commercially exploit the Software.
4. You may not electronically transmit the Software from one computer, console or other platform to another or over a network.
5. You may not use any backup or archival copy of the Software for any purpose other than to replace the original copy in the event it's destroyed or becomes defective.

EDITOR AND END-USER VARIATIONS

If the Software includes a feature that allows you to modify the Software or to construct new variations (an "Editor"), you may use such Editor to create modifications or enhancements to the Software, including the construction of new levels (collectively the "Variations"), subject to the following restrictions. Your Variations: (i) must only work with the full, registered copy of the Software; (ii) must not contain modifications to any executable file; (iii) must not contain any libelous, defamatory or other illegal material, material that is scandalous or invades the rights of privacy or publicity of any third party; (iv) must not contain any trademarks, copyright-protected work or other property of third parties; and (v) may not be commercially exploited by you, including but not limited to making such Variations available for sale or as part of a pay-per-play or timesharing service.

TERMINATION

This EULA is effective until terminated. You may terminate this EULA at any time by destroying the Software. This EULA will terminate automatically without notice from the Company if you fail to comply with any provisions of this EULA. All provisions of this EULA as to warranties, limitation of liability, remedies and damages will survive termination.

LIMITED WARRANTY AND DISCLAIMER OF WARRANTIES

You are aware and agree that use of the Software and the media on which is recorded is at your sole risk. The Software and media are supplied "AS IS." Unless otherwise provided by applicable law, the Company warrants to the original purchaser of this product that the Software storage medium will be free from defects in materials and workmanship under normal use for ninety (90) days from the date of purchase. The warranty is void if the defect has arisen through accident, abuse, neglect or misapplication. If the Software fails to conform to this warranty, you may at your sole and exclusive remedy, obtain a replacement free of charge if you return the defective Software. Follow the Product Return Procedures described in the Manual. The Company does not warrant that the Software or its operations or functions will meet your requirements, or that the use of the Software will be without interruption or error.

TO THE FULLEST EXTENT PERMISSIBLE UNDER APPLICABLE LAW, EXCEPT FOR THE EXPRESS WARRANTY SET FORTH ABOVE, THE COMPANY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING AND WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. EXCEPT FOR THE EXPRESS WARRANTY SET FORTH ABOVE, THE COMPANY DOES NOT WARRANT, GUARANTEE OR MAKE ANY REPRESENTATION REGARDING THE USE OR THE RESULTS OF THE USE OF THE SOFTWARE IN TERMS OF ITS CORRECTNESS, ACCURACY, RELIABILITY, CURRENTNESS OR OTHERWISE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF OR LIMITATIONS ON IMPLIED WARRANTIES, SO THE ABOVE EXCLUSIONS AND LIMITATIONS MAY NOT APPLY TO YOU.

LIMITATION OF LIABILITY

IN NO EVENT WILL THE COMPANY OR ITS EMPLOYEES OR LICENSORS BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, OR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR INJURY TO PERSON OR PROPERTY, FOR LOSS OF PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, LOSS OF PRIVACY, FAILURE TO MEET ANY DUTY AND NEGLIGENCE) ARISING OUT OF OR IN ANY WAY RELATED TO THE USE OR INABILITY TO USE THE SOFTWARE, EVEN IF THE COMPANY OR AN AUTHORIZED REPRESENTATIVE OF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSION MAY NOT APPLY TO YOU. IN NO EVENT WILL THE LIABILITY OF THE COMPANY FOR DAMAGES WITH RESPECT TO THE SOFTWARE EXCEED THE AMOUNTS ACTUALLY PAID BY YOU FOR THE SOFTWARE.

CHOICE OF LAW AND VENUE

This EULA is governed by the laws of the United States of America and the State of New York, exclusive of its conflicts of law provisions. The exclusive venue for litigation regarding or arising from this EULA is New York County, New York and you agree to submit to the Jurisdiction of the courts of New York County, New York for any such litigation.

MISCELLANEOUS

If any provision or portion of this EULA is found to be unlawful, void, or for any reason unenforceable, it will be severed from and in no way affect the validity or enforceability of the remaining provisions of the EULA.

This EULA constitutes the entire agreement between you and the Company regarding the Software and its use.
